DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The basic design of this house is similar to several others on William Street, although this house is less plain and is probably slightly older. It is a two and one half story frame house with a steep pitched hip roof that rises to a center peak where the chimney is located over the main portion of the house. There are gabled dormers on the east and west, and on the front of the house is a gable over an oriel window. Across the front is a one story porch, supported by turned posts, with a ballustrade with turned ballusters. The porch has a gallery supported by carved corner brackets with pierced work.

STATEMENT OF SIGNIFICANCE

This large house, built around the turn of the century, is similar in basic design to several others on William Street, but less plain. William Street consists of several large early 20th century houses which are fairly simple in design, but form an attractive group of solidly constructed older homes.
